

ALLBAND EXPARTE

CC Docket #96-45

**In The Matter of
Osirus Communications'
Petition for Waivers of the Commission's
Rules to Participate in NECA Pools and
Tariffs and to Obtain Accelerated USF**

January 29, 2008

Allband Is Dedicated To Providing Ubiquitous Services In Unserved Areas In Michigan: Phase I

- On November 3, 2003, after extensive planning and organizational efforts, Allband filed its Articles of Incorporation with the State of Michigan.
- On July 29, 2004, Allband filed a complete loan application with the USDA Rural Development.
- On August 31, 2004, the Michigan Public Service Commission (“MPSC”) in Case No. U-14200 granted Allband a temporary license to provide service to the area Allband planned to serve in Phase 1 (the Robbs Creek Exchange). A permanent license was granted by the MPSC in Case No. U-14200 on December 2, 2004.
- Allband obtained RUS funding on October 7, 2004 and began constructing an all fiber, passive optical, state of the art telecommunications network that would allow Allband not only to provide standard telecommunications services, but also ubiquitous broadband and other advanced services.

Allband Is Dedicated To Providing Ubiquitous Services In Unserved Areas In Michigan (Cont.) Phase I

- On August 11, 2005, the FCC granted Allband's waiver of certain of the FCC's rules and allowed Allband to be treated as an ILEC for NECA pooling and Universal Service purposes.
- On November 10, 2005, the MPSC in Case No. U-14659 granted Eligible Telecommunications Carrier (ETC) status to Allband.
- Allband joined the NECA pools in December 2006. This action allowed Allband to (a) Minimize administrative expenses and (b) Maintain reasonable and stable access rates.
- USAC and NECA recognized Allband as an ILEC and began providing Interim Common Line Support and Local Switching Support in December 2006. Allband will begin receiving High Cost Loop Support in January 2008. This support is being used and will be used by Allband to recover a substantive portion of the ongoing high cost of providing ubiquitous network facilities and thus to enable Allband to maintain reasonable local exchange consumer rate levels (\$19.90 per month for residence and business).

Allband Is Planning To Providing Ubiquitous Services In Unserved Areas In Michigan (Cont.) Phase II

Allband began planning for the second phase of its long-term plan in early 2007, which is to provide the same high quality universally available basic, advanced and interexchange network services at just, reasonable and affordable rate levels in other unserved areas in Michigan. The customers to be served are located in the following counties in Michigan and will be served within the proposed Allband exchanges listed below.

- | | |
|--|-------------------------------|
| • Oscoda and Ogema Counties | Big Creek Exchange |
| • Presque Isle County | Fox Creek Exchange |
| • Alcona and Losco Counties | McDonald Creek Exchange |
| • Gladwin County | Mosquito Alley Exchange |
| • Oscoda County | Old Baldy Exchange |
| • Presque Isle County | Thunder Bay Exchange |
| • Presque Isle and Montmorency
Counties | Upper Tomahawk Creek Exchange |

Allband Phase 1 and Phase 2 - Licensed Service Territories

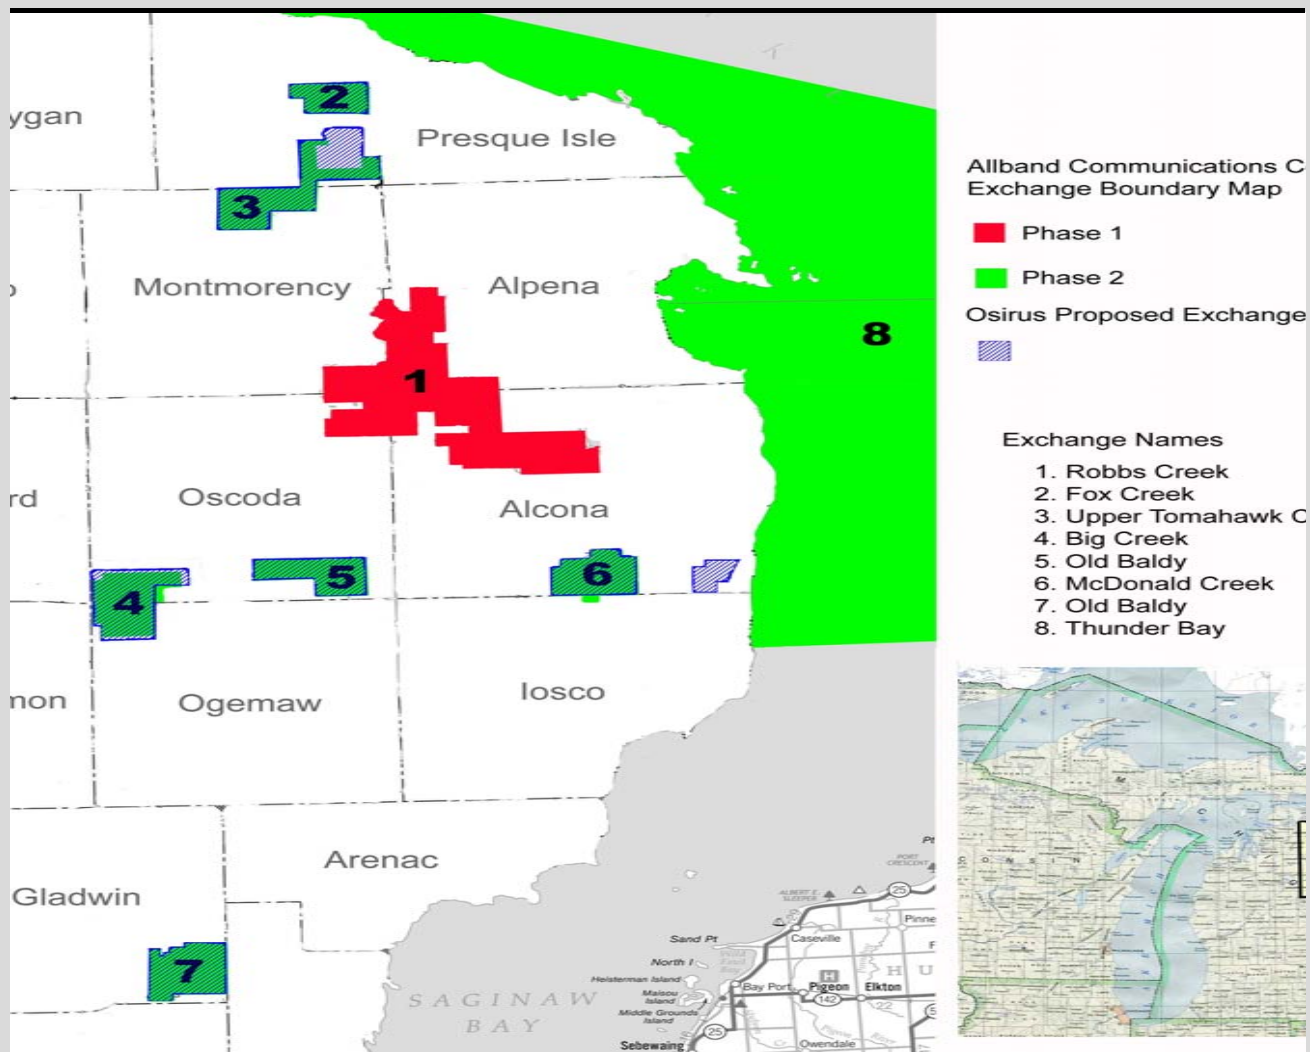

January 29, 2008

Allband Opposes Osirus' Petition and Requests its Prompt Denial

1. Allband, an existing ILEC in Michigan, is already planning to serve all but one of the unserved areas described in Osirus' petition.
2. Allband already meets all of the requirements of this Commission and the Michigan Public Service Commission ("MPSC") to serve the unserved areas. Allband:
 - Obtained the relevant waivers of the Commission's Rules in 2005, that Osirus now seeks to duplicate in this docket in 2007;
 - Has an MPSC license to serve all of the unserved areas;
 - Is combining the unserved areas with its existing ILEC study area in Michigan in compliance with the Commission's Orders; and
 - Meets the stricter requirements of NECA to include the additional areas in the NECA pools and tariffs and has provided such documentation to NECA.
3. Allband has already begun the work (network design, financial analysis, RUS loan) to provide service to the areas in question.

Allband Phase 1 and Phase 2 - Licensed Service Territories
Also showing areas where Osirus has requested a study area waiver

has essentially requested a study area waiver for the same areas that Allband is already planning to serve as C. Osirus has apparently utilized an outdated exchange boundary map in its request because the blue areas **Osa, Presque Isle, and Cheboygan** counties are already served by another ILEC.
